MSXML 6 SP2 會造成 SQL Server 2008 安裝失敗

今天上課時，安裝 SQL Server 2008 一直失敗，檢視其錯誤 Log 說是 MSXML 造成的，因為 2008/11/11 KB954459 更新安裝了 MSXML 6 SP2

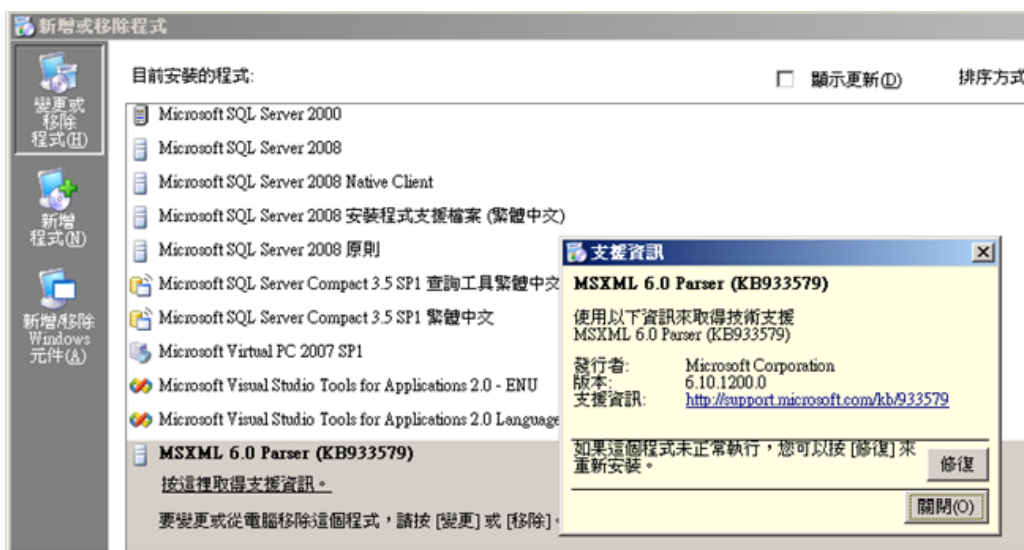

到新增移除可以比對這個版本

但 SQL Server 2008 自家用的 MSXML 是 6.1，所以 SQL Server 2008 的安裝程式執行過程中，發現系統上有更新的版本，就在執行紀錄留下訊息，放棄繼續安裝，而非略過。😞

只好先移除掉 MSXML 6 SP2，安裝完 SQL Server 2008 後，再更新 HotFix 一次 🤖

感謝微軟 James、River 一起幫忙找出這個問題的原委 🙏

我也遇到同樣的問題。但我試著移除msxml6 update時，卻是無法移除，出現嚴重問題的警告。
請問，是否有其他方式移除此一程式。
謝謝!!

Dear 胡老師:

跟您請教一下SQL Server Report Service的問題,

Questions:

A. report parameters

a. report parameters的 layout 可不可以 customized?

例如: display 4 parameters per row instead of 2

例如: text box "from" and text box "to" can be displayed in the same row

b. "dropdown 2" 的 values 可不可以根據 "dropdown 1" 的 value 改變?

例如: 當 "dropdown 1" 選 "a" 時, "dropdown 2" 的 values 是: a-1, a-2, a-3, ...

當 "dropdown 1" 選 "b" 時, "dropdown 2" 的 values 是: b-1, b-2, b-3, ...

c. "f 1" 的 available values 可不可以一部分是 static data, 另一部分是 from query?

d.

B. Pagination

a. 可不可以設定一頁顯示幾筆資料? 例如: 50 records per page, 100 records per page ...

C. the width of the report columns 可不可以設成比例式的 instead of fixed width to avoid horizontal scrolling. 例如: 30%, 20%

D. sub-total : 如何只針對 current page 的所有 records 做加總?

E. Others:

- a. How to apply an external css file to all reports?
- b. 有沒有辦法在 report 中加入html/javascript code?
- c. 如何 highlight the selected row in the report?
- d. How to pass parameters between reports?

感謝!
